

FOR IMMEDIATE RELEASE

Scalable SSD and SAS Virtual SAN Storage

Cybernetics Adds 2U Solid State Disk and Serial Attached SCSI Solutions to its Popular SAN Storage Lineup

Sep 6, 2011, Yorktown, Virginia – Cybernetics has announced the immediate availability of SSD and SAS drives in a compact 24 drive bay 2U solution.

Cybernetics' iSCSI SAN solution, is now available in a 2U 24 drive bay model. It delivers between 12 TB and 21.6 TB of SAN storage in a compact enclosure with your choice of SSD or SAS disk drives. Powered by our exclusive performance engine, SANDR 5.0, iSAN® SAN storage delivers transfer rates of up to 1.2 GB/s and can sustain 400,000 IOPS. As simple as DAS - but delivering all the benefits of virtualization - iSAN® D Series is an excellent choice of SAN storage for the small to mid-sized business with growing storage requirements. Like all Cybernetics' SAN storage solutions, it's loaded with onboard data protection features like snapshot backup, portable disk backup, tape backup and encrypted and deduplicated WAN replication. For high availability, two units can provide automatic failover with no single point of failure.

Based in Yorktown, Virginia, since 1978, Cybernetics manufactures, supports, and services a complete family of disk-based storage and backup solutions. Cybernetics is recognized in the United States and around the world as a pioneer in data storage technology, specializing in industry-first features that vastly improve the performance of tape and disk subsystems.
